**Date: April 23, 2009**

**To: All RV Owners**

**SUBJECT: Garnet Technologies Inc. announces expansion of SeeLevel Installations on motorhomes, fifth wheels and trailers at our Texas Location**

For the past 5 years we have done SeeLevel RV Systems retrofits at our warehouse on a limited basis to allow our technical staff to get hands on experience under the guidance of Don Shapansky, who is a certified automotive, heavy truck and motorcycle technician. The experience gained has enabled our staff to have real world experience and offer better telephone / e-mail technical support.

Garnet Technologies Inc. has doubled the size of our warehouse approx 2 years ago and we are now offering installations on an enlarged scale.

Garnet Technologies Inc. offers the following services:

1. All SeeLevel installations will be scheduled by appointment by calling our **Toll Free No. (877) 668-7813** between the hours 08:30 – 4:30pm Central Time Monday to Friday.
2. We offer same day job completion.
3. We realize some RV's will not be easy to retrofit and therefore we reserve the right to decline to install the SeeLevel system if the job is beyond our scope of abilities or shop equipment requirements
4. Local RV Parks are available to arrive ahead of the scheduled appointment:
  - a. **377 RV Park**  
**4170 E.Highway 377**  
**Granbury, TX**  
**Ph: (817) 579-1315**
  - b. **Bennett's RV Ranch**  
**2708 E Highway 377 Granbury, TX**  
**Ph: (817) 279-7500**
